

When the executive committee meets Saturday, it should provide for the revision of all club rolls. We have been reliably informed that some of the rolls have not been thoroughly revised in several years. As all representation is based on club rolls, it is very important that they be kept up to date.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dizziness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently, but by strengthening the bowels enable them to perform their own work. Never gripe or distress. McMaster Co.

White Oak Whittlings.

We are beginning to need rain in this section. The last few days of tremendous hot weather and high winds has somewhat damaged the crops to a certain extent. The farmers are about all ready to put the last furrows in their crops. In ten or twelve days they will all be about through laying by except some late crops they planted since they cut their grain. Vegetables of all kind are fine. Melons are beginning to get ripe. I think they will be fine and plenty of them.

In a difficulty between Jim McMillan and Jim Brice, two negroes on Mr. T. H. Patrick's place, a few days ago, the former was struck on the head with a plow point by the latter, inflicting a painful wound, which was dressed by Drs. Lindsay and Hanahan. He is now getting along well.

July 5. Sentinel.

Summer complaint is unusually prevalent among children this season. A well developed case in the writer's family was cured last week by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy—one of the best patent medicines manufactured and which is always kept on hand at the home of ye scribe. This is not intended as a free puff for the company, who do not advertise with us, but to benefit little sufferers who may not be within easy access of a physician. No family should be without a bottle of this medicine in the house, especially in summer-time.—Lansing (Iowa) Journal. For sale by McMaster Co.

Bryant and Longtown.

Though all crops have suffered from the long drouth, the crop conditions are generally good, the melons and potatoes being unusually good. The latter is an excellent crop and one that every farmer should have. Now is a good time to set out a late patch. Those who have hitherto neglected to set out a patch should now do so. Vines are better than slips for late plantings. We have planted potatoes as late as August 5th, with satisfactory results.

They are just the paints to decorate your town or country home; to brighten it up, making it fresh and attractive, and ideal in appearance. They cost in the original packages a few cents per gallon more than thin paints, but when the necessary oil is added their cost is about \$1.20 or 30 cents per gallon less than thin paints.
